

Thank you!

Today, we'll explore the concept of PRIVILEGE. Let's start by doing the recycling bin activity.

RULES:

Prepare a ball of paper.
Stay in your seat.
Do not throw paper in the bin unless instructed.

INSTRUCTIONS:

Step 1: Look at the recycling bin. It represents your ability to be successful in life. Everyone in class represents society.

Step 2: For this activity, everyone has a chance to be successful. All you have to do is remain in your seat and wait for the signal to aim and throw your ball of paper.

Step 3: Your teacher or facilitator will count to three. Only then you can throw your paper in the bin.

POINTS TO PONDER:

Who among the group succeeded and failed?

Do you think the instructions were fair for everyone? Why or Why not?

How would you relate this exercise to our society?

What do you now think about the concept of privilege?

Ready? Three... two... one... throw!

Classroom Etiquette

In this class, there are some etiquette rules in teaching and learning activities so that the atmosphere in the class is organized and not noisy.

RAISING YOUR HAND WHEN YOU WANT TO ANSWER

When you want to answer a question from the teacher, you should raise your hand first so you don't scramble when answering the question.

DON'T TALK DURING LITERACY HOURS.

During literacy hours, a student is prohibited from talking or being crowded because this hour requires high concentration.
